

## Executive Breakfast Briefing

Data Driven Policing: Transforming Law Enforcement Operations Through Intelligent Analysis.  
July 28, 2010 | Sheraton Suites San Diego at Symphony Hall, 701 A Street San Diego, CA

### Data Driven Policing: Transforming Law Enforcement Operations Through Intelligent Analysis

Law enforcement organizations maintain and manage a staggering amount of data about their operations, personnel, and communities. Using intelligent and targeted data analysis progressive law enforcement agencies are learning how to drive their operations more efficiently and effectively to maximize their available resources.

Sierra Systems cordially invites you to an executive breakfast briefing exclusively for law enforcement IT management professionals on Wednesday, July 28 at Sheraton Suites San Diego at Symphony Hall. This seminar will not only offer you a chance to learn from three major police departments in LA, San Diego and San Francisco on their ongoing analytics initiatives, but also it will provide an excellent opportunity for you to share ideas, experiences and challenges with other leaders in law enforcement.

#### Featured Speakers:

##### **Maggie Goodrich**

CTO, Los Angeles Police Department

##### **Karen Goodman**

Supervising Management Analyst, ISYS  
San Diego Police Department

##### **Jim Villaluna**

Project Director, Professional Standards Unit  
San Francisco Police Department

#### Topics to be addressed:

- CompStat
- Risk and threat assessments
- Officer early intervention systems
